

Leaf Disposal

Please help us keep leaves out of the street. Leaves and grass should not be raked or blown into the street. Heavy leaves prevent the street sweeper from effectively cleaning the street. Leaves covering storm water grates can prevent water from draining, causing standing water or flooding in the area.

Leaves may be disposed of in your yard debris container provided by your garbage hauler or you may take leaves and other yard debris to the Dan Davis Recycling Center located at 4001 Willamette Falls Drive. Call Dan Davis Recycling for hours, rates, and information (503) 655-1928 or visit their website <http://www.plcrecycling.com/dan-davis.html> Call West Linn Refuse & Recycling for curbside recycling information (503) 557-3900.

West Linn Street Sweeping

One half of the streets located within the city are swept each month, with each half alternating from month to month. Sweeping generally starts the third week of the month. This schedule is flexible depending on weather and other issues which may arise. Contact Public Works at for information about your neighborhood's street sweeping schedule at (503) 656-6081 or email [pwops \[at\] westlinnoregon \[dot\] gov](mailto:pwops@westlinnoregon.gov).
